Abstract:

Under the title A Study on Influence of Mars in the Horoscopes of Surgeons, the horoscopes of surgeons are collected and the astrological rules stated in astrology for working as a surgeon are compared and examined in the collected horoscopes. The purpose of the study is to examine the influence of Mars in the 6th house of disease, the 8th house of surgery, and the 10th house of career in the horoscopes of surgeons.

Key Words: Mars - 6th House - 6th House Lord - 8th House - 8th House Lord - 10th House - 10th House Lord.

Introduction:

Medicine is the study of human health, disease, and the methods used to treat them. It is intertwined with the science and culture of a society or humanity.

In ancient times, people developed their own medical systems based on the natural resources and food types in their areas of residence. This includes traditional medical systems that originated in different parts of the world. For example, Indian Ayurveda, Siddha medicine, traditional Chinese medicine, and Greek medicine. Common diseases and epidemics that affected humanity over time, such as cholera, smallpox, and malaria, were studied and the effects of diseases on society were discovered and remedies were found.

In India, traditional medical systems such as Ayurveda and Siddha medicine have been practiced for thousands of years. Ancient physicians such as Charaka and Sushruta are considered pioneers in diagnosis and surgery, respectively. Sushruta in particular described several surgical techniques, which formed the basis of modern surgery.

Today, medicine is a global, formalized field. A person can practice as a doctor only after receiving proper education and training through medical colleges. Various specialties (cardiology, neurology, surgery, pediatrics, etc.) have emerged. With the development of technology, diagnosis, treatment, and surgeries have become more precise and safe.

Surgical medicine is a very important evolutionary development in human history. Over thousands of years, it has grown from a few simple techniques to the sophisticated, precise medical system of today. There are several important milestones in this development.

Ancient Surgery:

The earliest traces of surgery date back to the Stone Age. At that time, some simple procedures such as treating fractures and piercing the skull (Trephination) were practiced. However, it is Susrutha (600 BC) from India who is considered the father of surgery.

- Susrutha described more than 120 surgical instruments and more than 300 surgical procedures in detail in his book "Susrutha Samhita".
- He was the first to introduce techniques such as plastic surgery and cataract removal. This is a great testament to the medical knowledge of the time.
- Similarly, there is evidence of surgery in ancient Egyptian, Greek and Roman civilizations. The Greek physician Hippocrates (Hippocrates) said that surgery was different from general medicine.

The Middle Ages and Early Modern Period:

During the Middle Ages, due to limited scientific advances, surgery was mostly performed by novices (Barber Surgeons). They performed simple tasks such as cutting wounds, breaking bones, and draining blood.

In the early modern period, the main challenges of surgery were pain, bleeding, and infection. Due to the lack of anesthesia, patients experienced severe pain. The success rate of surgery was very low.

Major Milestones:

- Discovery of Anesthesia (19th century): This was a turning point in the history of surgery. After the discovery of anesthetics such as ether (Ether), nitrous oxide and chloroform, patients were able to undergo long surgeries without pain. This made it possible to perform complex surgeries more comfortably.
- Sterilization (19th century): A doctor named Joseph Lister discovered that germs cause infection during surgery and introduced methods of disinfecting instruments and wounds. This greatly reduced the rate of infections and mortality caused by surgery.
- Blood transfusion (20th century): After blood types were identified and a safe method of blood transfusion was introduced, it was possible to manage blood loss during major surgeries.
- Organ transplants: In the middle of the 20th century, organs such as kidneys and hearts could be successfully transplanted. This was a major achievement in medical science.

Today's Surgery:

Today's surgery involves cutting-edge technologies.

- **Minimally Invasive Surgery (Minimally Invasive Surgery):** Surgery is performed through small incisions using methods such as laparoscopy and endoscopy. This allows patients to recover faster.
- **Robotic Surgery:** Precise, complex surgeries are performed with the help of robots. This helps in performing delicate tasks that cannot be done by human hands.
- **Laser Surgery:** Laser technology is used to make precise cuts and remove tissue.
- **Artificial Intelligence:** Artificial intelligence is used for planning surgeries, controlling robots, and diagnosing.
- **Surgery,** which was a simple medical procedure in the time of Susrutha, has today reached the pinnacle of scientific and technological development. In the future, surgery will become more advanced, less invasive, and safer. It is a medical procedure that involves cutting, reattaching, and repairing body tissues and organs to treat diseases. It is an important branch of medicine.

Types of Surgery:

There are many types of surgery depending on the nature of the disease. Some of the main types are:

- **Diagnostic Surgery** to help determine the nature or cause of the disease inside the body. For example, taking a tissue sample (biopsy) to examine a cancerous tumor.
- **Reconstructive Surgery (Curative Surgery)** Surgery performed with the aim of curing the disease. For example, removing a stone in the gallbladder or removing an appendix.
- **Reconstructive Surgery** Rebuilding parts of the body that have been damaged by injury, accident, or other disease. For example, repairing a disfigured face in an accident with plastic surgery.
- **Emergency Surgery** performed immediately in a life-threatening situation. For example, controlling internal bleeding in serious accidents.
- **Palliative surgery** Surgery to relieve the symptoms of incurable diseases or to improve the quality of life. For example, cutting nerves to relieve pain caused by cancer.

Methods Used in Surgery:

- **Traditional surgery (open surgery):** In this, a large incision (incision) is made to access the affected area.
- **Minimally invasive surgery (Minimally Invasive Surgery):** The surgery is performed using small incisions, with a small camera and instruments inserted. This greatly reduces pain, bleeding, and scarring. (Example: Laparoscopy)
- **Robotic surgery (Robotic surgery):** A surgeon performs the surgery using a robot arm controlled by a computer. This increases precision and control.

Surgeon:

Surgeons (surgical surgeons) are those who, after completing medical school, receive specialized training in surgery. They specialize in various fields such as general surgery, neurosurgery, cardiac surgery, and orthopedic surgery.

Before the surgery, the patient is given an anesthetic (anaesthesia). This helps to keep the patient in a state of unconsciousness. With the development of modern technology, surgeries are much safer and more successful today.

The educational path to becoming a surgeon is a long, rigorous and dedicated journey. It involves a medical degree, special training and professional exams.

Basic Qualifications:

- **School education:** It is necessary to pass the 12th standard with good marks in science subjects (biology, chemistry, physics).
- **Entrance examination:** To get admission in medical studies, it is mandatory to qualify in the nationally conducted entrance examinations such as NEET (Education for Medical Education).

Medical Degree (M.B.B.S):

- **Duration:** It is a comprehensive course lasting about 5.5 years. This includes 4.5 years of classroom training and 1 year of compulsory internship (field training).
- **Training:** During this course, students will study in detail about human anatomy, physiology, pathology, pharmacology and various medical disciplines. During the internship, they will gain hands-on experience in treating patients in hospitals.

Postgraduate Course (M.S/M.D):

- **Specialised Training in Surgery:** After completing M.B.B.S, students have to opt for M.S. (Master of Surgery) or M.D. (Doctor of Medicine) in some fields to specialise in surgery.
- **Entrance Examination:** For this, it is also necessary to pass an entrance examination like NEET (PG).
- **Duration:** This course usually lasts for 3 years. During this course, students will gain in-depth knowledge and practical skills in a specific surgical discipline (for example, general surgery, orthopedic surgery, neuro surgery). Additional specialty training (Fellowship / M.Ch.)
- **Deep specialization:** To gain further specialization in surgery, one can pursue a M.Ch. (Magister Chirurgiae) or fellowship.

Examples:

- Cardiac Surgery
- Renal Surgery
- Plastic Surgery
- Pediatric Surgery
- **Duration:** These specializations last for 2 to 3 years.

The entire educational journey to become a surgeon can last for about 10 to 15 years. It is a profession that demands a lot of hard work and continuous learning.

Medicine and Astrology:

Once upon a time, the word doctor was used instead of the word doctor in our country. Before the advent of the English medical system, doctors used to find herbs, roots, vegetables, etc., mature them, mix them in the right quantities and turn them into medicines to cure diseases and treat people. At that time, a doctor must also know astrology. Because medicinal plants, roots, herbs, etc. should be matured and prepared for medicine by looking at the day, star, and date. They also calculated the day and date stars on which the patient should take the medicine. Thus, medicine and astrology worked together at that time. But with the scientific development that occurred in the last century, the English system of medicine, allopathy, has become famous worldwide. The medical and surgical system has revolutionized the modern world. Therefore, this course has also gained great popularity worldwide. Even in our country, the need and interest in medical education is constantly increasing. If one wants to become a doctor, one has to pass the entrance examination for medical education, after which one has to complete medical education and then serve as a doctor. Thus, in order to pass the entrance exam, successfully study medicine, and join the profession and serve as a surgeon, the planetary systems must be favorable. According to the astrological rules for serving as a surgeon, you can see in detail what kind of planetary system is favorable for a person.

You can find the astrological rules for becoming a surgeon. These rules are based on traditional astrology.

Some General Rules:

Importance of Planets:

For a person to become a surgeon, Mars should be in a strong position in his horoscope.

- Mars: Mars is the lord of surgery, knife, blood, and courage. Therefore, Mars should be very strong in the horoscope of a surgeon.

Houses of Sin:

Some of the Sins in the horoscope indicate the medical profession.

- 10th House: This is the place that indicates career, work, and social status. To become a surgeon, this house should be very strong.
- 6th House: This indicates illness, enemies, and debt. The karakatva of this house includes the removal of diseases through surgery. Therefore, it is necessary for a surgeon to have a strong 6th house.
- 8th House: This is the house that indicates surgery, emergency treatment, and life. The connection of this house is essential for a surgeon.

Astrological Rules for Surgeons:

Rule No. 1:

Mars in conjunction with the 6th, 8th, and 10th houses. This is considered a very good arrangement for becoming a surgeon.

Explanation of the rule:

- Mars in the 6th, 8th, and 10th houses or aspecting the 6th, 8th, and 10th houses as its 4th, 7th, and 8th aspects.
- Mars in conjunction with the lords of the 6th, 8th, and 10th houses or aspecting the lords of the 6th, 8th, and 10th houses as its 4th, 7th, and 8th aspects.
- The 6th, 8th and 10th houses become Mars zodiac signs of Aries or Scorpio.
- The 6th, 8th, and 10th lords are in the nakshatra padam of Mars, Mrugasiridam, Chithirai, and Avitam.

Rule No. 2:

The 6th, 8th, and 10th lords are in contact with each other. The contact of these lords increases the chances of becoming a surgeon.

Explanation of the rule

- The 6th, 8th, and 10th lords are in conjunction.
- The 6th, 8th, and 10th lords aspects with each other.
- The 6th, 8th and 10th Lords are standing among their own stars.

These planetary arrangements may give a person the interest, ability, and opportunities for success in the medical field.

Let's Take a Look at Some Examples of Horoscopes:

Number : 001

Date of Birth : 30.05.1993

Time of Birth : 03.35 PM

Place of Birth : Palakkad

Ven		Sun Keth	Mer
Sat	Rasi		Mar
	Rag	Asc	Moon Jup

Moon Ven	Jup	Sun	Keth
	Navamsam		
Mar			
Rag	Sat	Asc Mer	

This example is based on the following rules

Rule No. 1: Mars is in contact with the 6th, 8th, and 10th houses.

Explanation: Mars is in the 10th house.

Rule No. 2: The lords of the 6th, 8th, and 10th houses are in contact with each other.

Explanation: The lord of the 8th house, Venus, is in the 6th. The lord of the 6th house, Jupiter, is in conjunction with the lord of the 10th house, Moon, is aspecting Venus.

Number : 002

Date of Birth: 04.11.1992

Time of Birth: 05.53 AM

Place of Birth: Thirukovilur

	Asc	Keth	
Moon	Rasi		Mar
Sat			
	Rag Mer Ven	Sun	Jup

Sun Rag	Jup		Sat
Ven	Navamsam		Mar
Moon			
		Asc Mer	Keth

This example is based on the following rules

Rule No. 1: Mars is in relation with the 6th, 8th, and 10th houses.

Explanation: Mars aspects the 10th house.

Rule No. 2: Lords of the 6th, 8th, and 10th houses are in relation with each other.

Explanation: Mercury, the lord of the 6th house, is in the 8th house, Mars is in the 10th house. Mars and Saturn, the lord of the 8th house, are in equal aspect.

Number : 003

Date of Birth: 12.04.1997

Time of Birth: 01.10 PM

Place of Birth: Chengalpattu

Sat Sun Keth	Ven Mer		Moon
	Rasi		Asc
			Mar
Jup			Rag

Sun	Ven		
Rag	Navamsam		Jup
			Mer Keth
Sat	Asc Mar	Moon	

This example is based on the following rules

Rule No. 1: Mars is in relation with the 6th, 8th, and 10th houses.

Explanation: Mars, the lord of the 10th house, aspects the 8th house and Saturn, the lord of the 8th house.

Rule No. 2: Lords of the 6th, 8th, and 10th houses are in relation with each other.

Explanation: Saturn, the lord of the 8th house, is in the house of Jupiter, the lord of the 6th house, then Jupiter, the lord of the 6th house, is in the house of Saturn, the lord of the 8th house.

Number : 004

Date of Birth : 09.02.1997

Time of Birth: 11.21 PM

Place of Birth: Chennai

Sat Keth			
Moon	Rasi		
Sun Jup Ven Mer			
		Asc	Mar Rag

Mer Rag	Mar Jup	Ven	Moon
	Navamsam		
Asc			
		Sat	Sun Keth

This example is based on the following rules

Rule No. 1: Mars is in relation with the 6th, 8th, and 10th houses.

Explanation: Mars aspecting the 6th house.

Rule No. 2: Lords of the 6th, 8th, and 10th houses are in relation with each other.

Explanation: 1. Jupiter, the lord of the 6th house, is in conjunction with Venus, the lord of the 8th house.

2. Jupiter, the lord of the 6th house, Venus, the lord of the 8th house, receives the essence of the Moon, the lord of the 10th house.

3. Moon, the lord of the 10th house, receives the nakshatra padam of Jupiter, the lord of the 6th house.

Number : 005

Date of Birth: 26.09.1994

Time of Birth: 08.40 AM

Place of Birth: Chennai

	Keth	Moon	
Sat	Rasi		Mar
		Asc Rag Jup Mer Ven	Sun

Asc Sun Ven	Jup Rag		Moon
Sat	Navamsam		Mar
	Mer	Keth	

This example is based on the following rules

Rule No. 1: Mars is in conjunction with the 6th, 8th, and 10th houses.

Explanation: Mars is in the 10th house and aspects Jupiter, the lord of the 6th house, and Venus, the lord of the 8th house.

Rule No. 2: Lords of the 6th, 8th, and 10th are in conjunction with each other.

Explanation: 1. Jupiter, the lord of the 6th house, and Venus, the lord of the 8th house are in conjunction.

2. Moon, the lord of the 10th house, is in conjunction with the 8th house.

Number : 006

Date of Birth: 12.01.1997

Time of Birth: 11.30 PM

Place of Birth: Tenikasi

Sat Keth			
Moon	Rasi		
Jup			
Sun Mer Ven			Asc Mar Rag

Moon Mar Rag		Asc	Ven Mer
Jup	Navamsam		
Sun			Sat Keth

This example is based on the following rules

Rule No. 1: Mars is in relation with the 6th, 8th, and 10th houses.

Explanation: 1. Mars is in the ascendant and aspects the lord of the 6th house, Saturn, the lord of the 10th house, Mercury, and the 8th house.

Rule No. 2: The lords of the 6th, 8th, and 10th houses are in relation with each other.

Explanation: Saturn, the lord of the 6th house, and Mars, the lord of the 8th house, are in equal aspect and Mercury, the lord of the 10th house, is in aspect with Mars in the 4th aspect and Saturn in the 10th aspect.

Number : 007

Date of Birth: 20.06.1991

Time of Birth: 10.03 AM

Place of Birth: Salem

			Sun Mer Keth
	Rasi		Jup Mar Ven
Sat			Asc
Rag			Moon

	Asc Sat	Keth	Moon
	Navamsam		
Mar			
Jup Mer Ven	Sun Rag		

This example is based on the following rules

Rule No. 1: Mars is in conjunction with the 6th, 8th, and 10th houses.

Explanation: Mars is in the 12th house with Jupiter, the lord of the 8th house, and Venus, the lord of the 10th house, and aspecting the 6th house and Saturn, the lord of the 6th house.

Rule No. 2: Lords 6, 8, and 10 are in conjunction with each other.

Explanation: Jupiter, the lord of the 8th house, and Venus, the lord of the 10th house, are in conjunction. Jupiter and Venus together aspect Saturn, the lord of the 6th house, in equal aspect.

Number : 008

Date of Birth: 11.08.1991

Time of Birth: 07.18 PM

Place of Birth: Coimbatore

			Keth
Asc	Rasi		Sun Jup
Sat			Moon Mer Mar Ven
Rag			

Jup Sat		Keth	
Sun	Navamsam		Ven Mer
			Moon
	Asc Rag		Mar

This example is based on the following rules

Rule No. 1: Mars is in conjunction with the 6th, 8th, and 10th houses.

Explanation: Mars is the 10th lord and is in conjunction with the 6th lord Moon and the 8th lord Mercury. Mars is in conjunction with the 10th lord.

Rule No. 2: The 6th, 8th, and 10th lords are in conjunction with each other.

Explanation: The 6th lord Moon, the 8th lord Mercury, and the 10th lord Mars are in conjunction.

Number : 009

Date of Birth: 08.07.1995

Time of Birth: 07.34 PM

Place of Birth: Chennai

Sat	Keth		Sun Ven Mer		Sun		Moon Keth
	Rasi			Asc	Navamsam		Sat
Asc				Ven			
	Jup	Rag Moon		Mar Rag		Mer Jup	

This example is based on the following rules

Rule No. 1: Mars is in conjunction with the 6th, 8th, and 10th houses.

Explanation: Mars is in conjunction with the 8th house lord Sun.

Rule No. 2: The 6th, 8th, and 10th house lords are in conjunction with each other.

Explanation: Mercury, the 6th house lord, Sun, the 8th house lord, and Venus, the 10th house lord, are in conjunction with each other and Mercury, the 6th house lord, is in conjunction with Mars.

Number : 010

Date of Birth: 24.03.1994

Time of Birth: 03.11 AM

Place of Birth: Chennai

Sun Ven		Keth			Jup	Asc	Mar
Mar Sat Mer	Rasi				Navamsam		Rag Ven
Asc				Moon Mer Keth Sat			
	Rag	Jup					Sun

This example is based on the following rules

Rule No. 1: Mars is in conjunction with the 6th, 8th, and 10th houses.

Explanation: Mars is in conjunction with the 8th house and Mars is in conjunction with Mercury, the lord of the 6th house.

Rule No. 2: The lords of the 6th, 8th, and 10th houses are in conjunction with each other.

Explanation: Venus, the lord of the 10th house, receives the nakshatra padam of Mercury, the lord of the 6th house, and the lord of the 8th house, Sun, and the lord of the 10th house, Venus.

Conclusion:

The advantages of surgeons were collected and studied under the title “A Study on the Influence of Mars on the Prosperity of Surgeons”. As a result of the study, two rules in astrology are the main reasons for a person to work as a surgeon. They are rule number 1) Mars is related to the 6th, 8th, and 10th houses. Rule number 2) The lords of the 6th, 8th, and 10th houses are related to each other. According to the above rules, it is known that Mars plays an important role in the advantages of surgeons as Mars plays a karakam for a person to work as a surgeon.
